RE: Endorsement

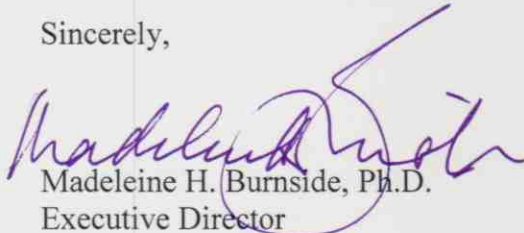

To Whom It May Concern:

The Frazier International History Museum is a 100,000 square-foot, state-of-the-art museum encompassing three floors in Louisville, KY. The core of the Museum's collection is arms and related artifacts made between the 16th and 20th century. We were asked to "try" Clenzoil Field and Range. We have used other products in the past but we decided to try the product on a few pieces of the Frazier's permanent collection. We found it to be an excellent product and will continue to use it.

I must say, beyond a shadow of a doubt, Clenzoil Field and Range is an excellent product; I endorse it whole-heartedly and would recommend it to any museum or serious collector who is interested in the care and preservation of their collection.

Thank you for bringing this product to the market.

Sincerely,

Madeleine H. Burnside, Ph.D.
Executive Director
